About Us

South Norwood Net is a volunteer community group run by local business owners and residents. We help with local projects, promote residents associations and circulate information about local news and events.

Our website is an information portal to hundreds of daily visitors who look up local businesses, upcoming events, information about local history, venues and places to visit. Facebook and Twitter channels are also key to promoting local events to thousands of followers.

Our network members also help with small to large size local projects, from delivering leaflets and street clean-ups to organising the local festival where over 6,000 people attend.

We distribute 10,000 of these events programmes every 1-2 months for free. If you are interested in volunteering or advertising please get in touch via the website, Facebook or Twitter.

Please visit www.southnorwood.net and go to the contact page.
